I. Introduction

The Sierra Nevada Conservancy (SNC) has prepared three Grants Application Packets (GAPs) that provide instructions for completing an application for a SNC Proposition 84 grant. **This GAP provides information and all forms necessary to complete a successful application for a Strategic Opportunity Grant, Category 2 (SOG 2).** SOG 2 applications are for projects other than acquisition or site improvement/restoration, with a cost range up to \$500,000. There are similar GAPs for Competitive Grants and Category 1 SOGs.

Before choosing which GAP to use, applicants are strongly advised to read the companion Grants Guidelines and consult with SNC staff to determine the most appropriate type of grant opportunity for your planned project. In addition to providing information on the types of grants available, the Grants Guidelines contain general program guidance and rules regarding eligibility of applicants and projects. Once the applicant decides which type of grant to apply for and understands the general rules from the Grant Guidelines, the applicant is ready to use the appropriate GAP.

Applicants are encouraged to consult with SNC staff regarding any questions and to regularly consult the SNC Web site at <http://www.sierranevada.ca.gov/grants.html> for the most current information involving Proposition 84 and future funding sources. Sample grant agreements for acquisition, site improvement/restoration, and other project types are on the Grants page of the SNC Web site for applicants who want more information about the administrative requirements once a grant is authorized.

All information submitted becomes property of the SNC and part of the public record. These materials may be viewed by the public. In the SNC's effort to conduct business in an open and transparent manner, application content may also be posted to the SNC Web site.

In some instances, applicants may request that certain information submitted in an application be considered confidential. Upon request of the applicant, SNC staff will determine if the information can legally be treated as confidential, and if so, will not share that information publicly.

By submitting application materials, the applicant agrees to give the SNC permission to use them for not-for-profit governmental purposes including, but not limited to, education and awareness. Examples of materials that may be used by the SNC are photographs, maps, text, graphics, and forms. This permission to SNC includes publication of printed material, television broadcasts, Web sites, or intranet. The applicant will not be compensated for such use.

**SIERRA NEVADA CONSERVANCY
Proposition 84 Grants Guidelines
FY 08-09**

Competitive Grants

- \$7 million for entire SNC Region
- Application deadline September 15, 2008
- For grants between \$250,000 and \$1,000,000
- Eligible project types include acquisition and site improvement/restoration
- Authorized by SNC Board in March 2009

Strategic Opportunity Grants (SOGs)

- \$1 million per Subregion (\$6 million total)
- \$1 million for projects of Region-wide significance
- Application deadlines September 2, 2008 and February 27, 2009
- Authorized by SNC Board in December 2008 and June 2009

SOG Category 1 (SOG 1)

- For grants \$5,000 to \$250,000
- For acquisition and site improvement/restoration projects only
- Authorized by the SNC Board

SOG Category 2 (SOG 2)

- For grants up to \$500,000
- For projects that do not include acquisition or site improvement/restoration
- Authorized by the SNC Board (or by Executive Officer for time-sensitive grants up to \$50,000)

NOTE: Approximately \$3 million may be allocated by the Board among grant categories following the processing of initial grant applications in September 2008.

II. Grant Program Information

A. General Category Information

The Sierra Nevada Conservancy offers Proposition 84 grants in two categories: (1) Competitive Grants and (2) Strategic Opportunity Grants (SOGs). Information on applying for Competitive Grants and Category 1 SOGs (SOG1s) is contained in those particular GAPs.

When deciding which category of grant to apply for, there are three primary considerations:

1. Type of project (acquisition or site improvement/restoration vs. other types)
2. Amount of grant request
3. Timing factors or other special needs

An applicant may not combine requests for planning, acquisition, or site improvements/restoration in a single grant request. However, applicants can break a large project into phases and submit applications for each phase, such as a SOG 2 application for an appraisal and a subsequent Competitive Grant or SOG 1 application for an acquisition. Applicants are encouraged to consult with SNC staff to determine the most appropriate type of grant opportunity for potential projects.

Information about all of the grant categories is summarized on the flow chart on the previous page.

B. Grant Provisions

Grant-eligible costs may be incurred by a recipient entity only after the entity has entered into an agreement with the SNC on the terms and conditions. Only costs incurred after a grant agreement is fully executed will be eligible for reimbursement. The SNC may provide technical assistance to the grantee to ensure efficient administration of the grant.

Work on projects funded by grants authorized in FY 08-09 must be completed and fully invoiced by no later than the date specified in the grant agreement, but in no case later than April 1, 2013.¹

SNC may request that grantees provide public recognition to the SNC's Proposition 84 grant program through signage or written materials for public distribution, as appropriate.

¹ This time limit is subject to final control language in the state's budget. Specific time limits for individual projects will be addressed in the project grant agreements.

C. Performance Measures

Applicants must propose project-specific performance measures at the time of application submittal. Further information and recommended performance measures can be found in Appendix C of this GAP. Applicants may also propose alternative performance measures, which will be subject to the approval of SNC staff if a grant is authorized. The measures will be finalized in consultation with SNC staff prior to grant agreement approval.

All grantees will be required to provide periodic progress reports and a final report. The final report must include data related to the project performance measures.

See Exhibit B of the sample grant agreements at:

http://www.sierranevada.ca.gov/grant_applications.html for additional information on the required contents of these reports.

D. Eligible Costs

Only direct project costs for items within the scope of the project and within the time frame of the project agreement are eligible. Project-specific performance measurements and reporting should be included in the project budget.

Eligible administrative costs must be directly related to the project and may not exceed 15 percent of the project implementation cost. To determine the amount of eligible administrative costs, the applicant must first determine the cost of implementing the project. Once the project implementation cost has been determined, the applicant may calculate administrative costs and include them in the total grant request.

E. Ineligible Costs

Indirect expenditures billed as a percentage of implementation costs are not eligible for reimbursement. In addition, grant funding may not be used to:

- Address a violation of, or an order to comply with, any law or regulation;
- Implement required mitigation measures unless funding facilitates the implementation of a project that would itself be eligible for SNC Proposition 84 grant funding; or
- Pay for food or refreshments.

III. SOG 2 Application Requirements and Checklist

This section outlines the process and requirements for applying for SOG 2 grants.

SOGs are intended to provide the SNC flexibility to address various needs and time-sensitive opportunities for all project types in all program areas. SOGs are available in two annual filing periods, subject to available funding. SOG 2s can be

authorized by either the Board or the Executive Officer, depending on dollars requested and timing needs. Under certain circumstances multiple SOG grants may be treated as a block grant.

Eligible applications for SOGs are valid throughout the fiscal year in which they are submitted. An application filed but not funded in the first application cycle of the fiscal year will be deferred by the SNC for consideration in the second application cycle of the same fiscal year. Applicants may modify or add information to deferred applications, in consultation with SNC staff, until the deadline for the second application cycle. If not funded in the fiscal year in which the application was received, the applicant may submit a new application in a subsequent fiscal year.

SOG 2 grants may be used for activities other than acquisition and site improvement/restoration including, but not limited to:

- Monitoring/Research
 - Study/report
 - Data
 - Condition assessment
 - Model/map
- Planning
 - Plan
 - Collaborative process
 - Capacity building
- Education/Interpretation
 - Event/program
 - Outreach materials
 - Curriculum
- Pre-Project Due Diligence
 - Appraisal
 - CEQA/NEPA compliance
 - Environmental site assessment (Phase I/II)
 - Design/permit
 - Preliminary title report
 - Biological/other survey(s)

SOG 2 requests may be any amount not to exceed \$500,000. All requests exceeding \$50,000 require Board approval. Grants less than \$50,000 may be authorized by the Board, or by the Executive Officer in instances where there are extenuating circumstances or time constraints, and the project is ranked as high benefit by the SNC staff. The total amount of such authorizations by the Executive Officer will be limited to a maximum of \$150,000 between scheduled Board meetings, and any authorizations shall be reported to the Board at the next scheduled Board meeting.

A. Block Grants

An applicant may submit SOG applications for “block” funding of like projects proposed by multiple eligible entities (potential subgrantees), with the object of managing the grant funding for all of the projects under a single umbrella. This approach can significantly reduce administrative cost and effort for both the SNC and the applicant, since only one SNC grant agreement would be required. Project “blocks” may include, but are not limited to, planning activities related to fire safe projects, habitat protection/enhancement efforts, or invasive species eradication; mapping or other information technology projects; or educational efforts. Applicants are required to contact SNC staff in advance if they wish to pursue a block grant.

Such projects, in addition to being similar in nature, must meet Guideline requirements and must collectively fall within the applicable funding limits for an individual project in that category of grants. A summary sheet listing all of the projects, the rationale for grouping them, and the proposed managing agency must be provided along with the individual applications. Each individual project application will still be subject to review, and the SNC will reserve the right to fund a portion of the overall package.

No SOG 2 block grant may exceed \$500,000, inclusive of administrative costs. Administrative costs may not exceed 15 percent of eligible project implementation costs for the entire block grant (see II. D, Eligible Costs, for additional information). The 15 percent limit applies to total administrative expenses for both the grantee and subgrantees.

B. Applying for a Grant

1. General Information

(a) Pre-application

Applicants are encouraged to consult with SNC staff as early as possible, but at least 30 days prior to the filing deadline to receive pre-application assistance. Applicants seeking assistance should provide a pre-project description of no more than one page in length (See pre-application form in [Appendix B](#) of this GAP). Staff feedback can help the applicant develop a more successful application. Staff will also assign an SNC reference number to the project that should be used on all pertinent forms associated with a subsequent application for the same project.

(b) Application

Applicants will be required to submit a complete application packet to the SNC. All application materials and forms are included in this GAP, which will be available from the Grants page of the SNC Web site or SNC offices by

request. Please consult with SNC staff to coordinate submittal and ensure receipt.

NOTE: All projects funded by the SNC must meet the requirements of the California Environmental Quality Act (CEQA). Any public agency applicant having a project subject to CEQA must submit completed CEQA compliance documents with the application. The CEQA documents must have been adopted by the lead agency. All other applicants should consult with SNC staff as soon as possible regarding the appropriate process and documents required.

All application materials must be single-sided. All attachments are preferred to be sized 8 ½" x 11" and are not to exceed 11" x 17".

Applications shall include one unbound original with all appropriate signatures, two bound copies, and a CD containing all application materials (PDF format preferred). Applications must be delivered to the SNC at 11521 Blocker Drive, Suite 205, Auburn, CA 95603 by 5:00 pm on the application due date or postmarked no later than the due date. If you are unable to provide a CD, please consult with SNC staff for assistance. SNC is unable to accept on-line or email submittal of applications at this time.

An applicant may submit applications for more than one project; however, each type of project must have its own application.

C. Application Checklist

The following Checklist is required with every application. All checklist items must be addressed and items which are not applicable marked, "N/A". **Items which are applicable (required) must be completed and submitted with the application.** If all required items are not submitted at the time of application, the application will be considered ineligible.

Within the application, each item should be clearly labeled and presented in the order in which it appears on the checklist. Each item is explained in more detail on the following pages, with examples or forms provided where appropriate. The instructions for these items should not be included in the submitted application.

Note: You can only save data in this form if you are using Adobe Acrobat Pro. If you are not using Adobe Acrobat Pro, [click here](#) for a Microsoft Word version of this form, which you can fill out and save.

Application Checklist for SOG 2s

Project Name: _____

Applicant: _____

Date: _____

1. ☐ Table of Contents
2. ☐ Application Form
3. ☐ Authorization to Apply or Resolution, including additional requirements for 501(c)(3)s
4. ☐ Project Summary
5. ☐ Evaluation Criteria
6. ☐ Performance Measures
7. ☐ Environmental Setting and Impacts
8. ☐ Project Location Map
9. ☐ Photos of the Project Site
10. ☐ Land Tenure
11. ☐ California Environmental Quality Act (CEQA) and National Environmental Policy Act (NEPA) Compliance
12. ☐ Leases or Agreements
13. ☐ Regulatory Requirements
14. ☐ Demonstrations of Support
15. ☐ Executive Officer Authorization Request Form(**only** for time-sensitive projects up to \$50,000)

1. Table of Contents

Each application must include a Table of Contents with the applicable documents in the order listed on the checklist. All pages shall be numbered (handwritten numbers are acceptable).

2. Application Form

The following application form is available within this GAP on the SNC Web site and may be filled out electronically, but must be printed, signed with an original signature, and submitted with the application. For projects that have confidentiality requirements regarding some aspect of the project, applicants should consult with SNC staff prior to application submission.

Instructions for selected blocks of the application are as follows:

Block

1. The project name should be concise and descriptive of the proposed use of the grant.
2. Provide the SNC reference number if one has previously been assigned through the pre-application process. Otherwise, leave blank.
3. The applicant name must be the legal name of the applicant and spelled out completely, i.e., no acronyms. If the entity doing the work is using a fiscal sponsor, then the fiscal sponsor should be the applicant and all of the other submitted paperwork, such as the authorization to apply, must reflect that fact.
5. The form must be completed and signed by the applicant's authorized representative as defined in the Glossary of Terms.
7. All costs must be rounded to the nearest hundred dollars. "Other Funds" should include funds that have been requested as well as those that have been committed.
8. Choose the one Project Category that best suits the project. For 8a., choose the one primary Deliverable that best fits the chosen Project Category. Contact SNC staff if assistance is needed.
9. "Project address" refers to the physical location of the project. If there is no physical project site, enter the address for the applicant's office location.
10. For determination of latitude and longitude, use the center point of the project. Insert multiple entries as necessary. If there is no physical project site, insert the latitude and longitude for the applicant's office location. The following Web sites may help you find the latitude and longitude of your project:
 - a. <http://geonames.usgs.gov/pls/gnispublic/f?p=133:1:14802437402877255628>
 - b. <http://www.lat-long.com/>
 - c. <http://www.census.gov/cgi-bin/gazetteer>
14. Stipulate what type of CEQA or NEPA document is being provided with the

- application.
15. Provide the State Clearinghouse Number for the environmental document listed in Item 14.

Note: You can only save data in this form if you are using Adobe Acrobat Pro. If you are not using Adobe Acrobat Pro, [click here](#) for a Microsoft Word version of this form, which you can fill out and save.

Signed *(Authorized Representative)*

Date

Name and Title *(print or typed)*

3. Authorization to Apply or Resolution

Resolutions and Letters

Provide a copy of documentation authorizing applicant to submit application. A project-specific resolution is generally required for non-profit organizations and local government agencies. However, if the organization's governing board has delegated authority to a specific officer to act on behalf of that organization, that officer may, in lieu of a resolution, submit a letter of authorization along with documentation of the delegated authority. The documentation of delegated authority must include the language granting such authority and the date of delegation. Sample resolutions for non-profit organizations and local government agencies are provided immediately following the directions for this checklist item.

For both letters and resolutions, the authorized representative may be a particular person (or persons) or a position (or positions). The advantage of having a position named as the authorized representative is that a new letter or resolution would not be required should the person holding the position change.

Non-Profit Organizations

Nonprofit organizations must also submit their:

- Articles of incorporation;
- Bylaws; and
- 501 (c)(3) status letter from the Internal Revenue Service.

If a non-profit organization has submitted these documents to the SNC in prior funding cycles, the non-profit may check with SNC staff to determine if the documents are on file. If so, the non-profit may certify in a letter that the documents on file with the SNC are current and that no changes have been made. A non-profit must meet eligibility requirements at the time of application submittal. Non-profits incorporated outside California must submit documentation from the California Secretary of State at the time of application showing that they are permitted to do business in the State of California.

As required by statute, an eligible nonprofit organization is one that qualifies for exempt status under Section 501(c)(3) of Title 26 of the United States Code, and that has among its principal charitable purposes preservation of land for scientific, educational, recreational, scenic, or open-space opportunities; or protection of the natural environment or preservation or enhancement of wildlife; or preservation of cultural and historical resources; or efforts to provide for the enjoyment of public lands.

State and Federal Agencies

Resolutions are not required for applications by state or federal agencies. In lieu of a resolution, agencies must submit a letter authorizing the application. The letter must be

on the Applicant's letterhead, and identify the position (job title) of the authorized representative.

SAMPLE RESOLUTION
For grant application coming from Non-Governmental Organization
Resolution for Governing Board (Board of Directors)

Board of Directors Resolution No. _____

In the matter of: A RESOLUTION APPROVING THE APPLICATION FOR GRANT FUNDS FOR THE _____ GRANT PROGRAM UNDER THE _____ ACT OF _____ [DATE]	Resol. No: _____ Date: _____
--	-------------------------------------

The following RESOLUTION was duly passed by the Board of Directors of the
_____ [NGO name] at a regular meeting held
_____ [date], by the following vote:

Ayes: _____

Noes: _____

Abstentions: _____

Absent: _____

Signed and approved by:

Chair, Board of Directors

WHEREAS, the Legislature and Governor of the State of California have provided Funds for the program shown above; and

WHEREAS, the Sierra Nevada Conservancy (SNC) has been delegated the responsibility for the administration of a portion of these funds through a local assistance grants program, establishing necessary procedures; and

WHEREAS, said procedures established by the Sierra Nevada Conservancy require a resolution certifying the approval of application(s) by the Applicant's governing board before submission of said application(s) to the SNC; and

WHEREAS, the Applicant, if selected, will enter into an agreement with the SNC to carry out the project; and

WHEREAS, the _____ [NGO name] has identified the _____ [project name] as valuable toward meeting its mission and goals.

BE IT HEREBY RESOLVED by the Board of Directors of the _____, [NGO name] that this Board:

1. Approves the submittal of an application for the _____ project; and
2. Certifies that Applicant understands the assurances and certification requirements in the application; and
3. Certifies that Applicant or title holder will have sufficient funds to operate and maintain the resource(s) consistent with the long-term benefits described in support of the application; or will secure the resources to do so; and
4. Certifies that Applicant will comply with all legal requirements as determined during the application process; and
5. Appoints _____, or designee, as agent to conduct all negotiations, execute and submit all documents, including but not limited to: applications, agreements, payment requests, and so on, which may be necessary for the completion of the aforementioned project(s).

PASSED AND ADOPTED by the _____ [NGO name] on the ____th day of _____, 20__.

OF _____ ACT
[DATE]

First Reading: _____

The following RESOLUTION was duly passed by the Board of Supervisors of the County of _____ at a regular meeting held _____ [date], by the following vote on roll call:

Ayes: _____

Noes: _____

Absent: _____

Signed and approved by me after its passage.

Chair, Board of Supervisors

ATTEST:
Clerk of said Board

WHEREAS, the Legislature and Governor of the State of California have provided Funds for the program shown above; and

WHEREAS, the Sierra Nevada Conservancy (SNC) has been delegated the responsibility for the administration of a portion of these funds through a local assistance grants program, establishing necessary procedures; and

WHEREAS, said procedures established by the Sierra Nevada Conservancy require a resolution certifying the approval of application(s) by the Applicant's governing board before submission of said application(s) to the SNC; and

WHEREAS, the Applicant, if selected, will enter into an agreement with the SNC to carry out the project; and

WHEREAS, the County has identified the _____ [project name] project as valuable toward meeting its mission and goals.

BE IT HEREBY RESOLVED by the Board of Supervisors of the County of _____, State of California, that this Board:

1. Approves the submittal of an application for the _____ project; and
2. Certifies that Applicant understands the assurances and certification requirements in the application; and
3. Certifies that Applicant or title holder will have sufficient funds to operate and maintain the resource(s) consistent with the long-term benefits described in support of the application; or will secure the resources to do so; and
4. Certifies that Applicant will comply with all legal requirements as determined during the application process; and
5. Appoints _____, or designee, as agent to conduct all negotiations, execute and submit all documents, including but not limited to: applications, agreements, payment requests, and so on, which may be necessary for the completion of the aforementioned project(s).

4. Project Summary

Using the following form, provide a summary (**two-page maximum**) that describes key elements of the project. There are spaces on the form to describe the project goal or purpose, scope, deliverables and schedule, and costs. Information desired for each section is described below:

Project Goal: The project goal section should include a clear and concise statement of the project's purpose or what the project is intended to accomplish.

Project Scope: The scope section should clearly describe the nature and extent of the work to be completed with SNC grant funds, including any applicable quantitative information on project area and whether the work to be funded by the SNC is part of a larger project. Applicants should identify the role of any project partners, major project tasks, specific work products, and/or any other benchmarks. This section should also address the desired outcomes of the SNC portion of the project and, if applicable, how they fit into larger project goals. Finally, this section should include information on any other sources of funds or in-kind support committed or received that would be necessary to accomplish the project goal.

Letters of Support: In this section please list the name and organization for any letters of support that are included with the application. Letters of support are optional; however, any letters of support an applicant wishes to have considered for scoring purposes must be included at the time of application.

Project Deliverables and Schedule: Please list all major milestones or deliverables associated with the work described in the Project Scope section, including the anticipated date of completion of each. Assume a start date beginning 60 days after grant authorization by the SNC Board, and include all six-month progress reports and the final report (indicating project completion) in the schedule.

Project Costs: Please list, by category, all major project costs for which SNC funds are being requested, including staff time associated with completing the work of the project and any hard costs related to the specific tasks or deliverables outlined in the Project Scope and/or the Deliverables and Schedule. Be sure to include the cost of performance measure reporting as a cost category when developing the project budget. Round costs for each budget category to the nearest hundred dollars.

This form is available in this GAP on the SNC Web site and may be filled out electronically, but must be printed and submitted with the application.

5. Evaluation Criteria

In order to be eligible for Proposition 84 funding a project must: a) contribute to the protection and restoration of rivers, lakes and streams, their watersheds and associated land, water, and other natural resources; AND b) address one or more of the seven SNC program areas.

Projects will be evaluated on the following criteria in order to determine which projects will provide the greatest contribution to achieving the SNC's mission, consistent with the requirements of Proposition 84.

In evaluating proposals for SOG 2 funding, Project Quality and Readiness, Land and Water Benefits, and SNC Program Goals (Paragraphs A, B, and C) are primary considerations. Cooperation and Community Support, Project Management, and Additional Ranking Factors (Paragraphs D, E, and F) are secondary considerations. A point system is not used for SOG 2 applications.

Provide a written answer to each question or respond to each statement in the Evaluation Criteria as it pertains to the project. Please include the criteria headings in your response, i.e., Project Quality and Readiness, Land and Water Benefits, etc., but not the questions or directions in this section. Limit the response to the Evaluation Criteria to no more than 10 pages, 8 ½" x 11" paper, single-spaced with a double space between paragraphs, and with 12-point font. Any pages beyond the 10-page limit will not be reviewed. Attachments do not count as part of the 10-page requirement.

(a) **Project Quality and Readiness**

The level of detail should allow a person unfamiliar with the project to understand the purpose, goals, and outcomes of the project. The project description should allow for review of consistency with any site plans, budget items, and maps.

i. **General Description**

Describe the proposed project in detail including purpose, goals and deliverables. Stipulate specifically what work will be completed utilizing SNC grant funding. Describe methods to be used to accomplish the project and the role of applicant and all partners/contractors. Explain if implementation of the project is part of a larger plan and how it relates to other projects. Describe related activities that have been completed to date and how the project supports these efforts. Describe what steps of the project are already complete or in progress.

ii. Workplan and Schedule

1. In the workplan, describe the specific tasks and schedule needed to complete the project.
2. Describe the factors affecting the project timeline and completion such as availability of labor and materials, and how these factors will be addressed. Describe how the project will be implemented in a timely manner.

iii. Budget

NOTE: This section needs to be consistent with the Project Summary prepared in response to Checklist Item 4 of this GAP.

1. Describe any monetary and/or in-kind support that is a part of the project, including the source(s) of funds already committed to the project. Provide information on any other state, federal, or local funding sought or received for the project. Cite specific dollar amounts for cash contributions and in-kind services, such as volunteer effort, technical expertise, etc. Other contributions to the project are not required to receive a grant; however, projects that include other sources of funds will be more competitive.
2. Clarify what portions of the project (specific tasks, deliverables, and associated staff time) are requested to be funded by the grant and what funds will be contributed by the applicant and/or others. Explain the timing of availability of all funding.
3. If a project depends on other funding sources, describe what has been done to date and future actions that will be taken to secure the remaining funding.
4. If a project does not depend on other funding sources, include a statement that funding from SNC will be sufficient to complete the project.
5. Describe the cost-effectiveness of the project. For example, describe how costs compare to similar projects, how the project may use existing data and resources, and how the project will save costs in the future.

iv. Status of agreements and land tenure

Describe the status of the following and provide documentation as appropriate:

1. Agreements and commitments from project partners. Partnerships or collaborations deemed essential for the implementation of the grant project must be firmly established at the time of application.
2. Indication of the land tenure held (as applicable). See Checklist Item 10, Land Tenure, in this GAP for additional information.

(b) Land and Water Benefits

Describe how the project contributes to the protection and restoration of rivers, lakes and streams, their watersheds and associated land, water, and other

natural resources. Include how the project provides direct, indirect and long term benefits; avoids adverse impacts; and addresses existing or potential threats to water and watersheds and other natural resources. When appropriate, refer to performance measures (described in Appendix C of the GAPs) to help describe and quantify benefits.

(c) **SNC Program Goals**

- i. Describe how the project addresses one or more of the SNC program goals listed below. Identify the primary goal(s), as well as any secondary goals, addressed by the project. Projects that provide multiple benefits will be given priority.
 - 1. Provide increased opportunities for tourism and recreation.
 - 2. Protect, conserve, and restore the region's physical, cultural, archaeological, historical, and living resources.
 - 3. Aid in the preservation of working landscapes.
 - 4. Reduce the risk of natural disasters, such as wildfires.
 - 5. Protect and improve water and air quality.
 - 6. Assist the regional economy through the operation of the SNC's program.
 - 7. Undertake efforts to enhance public use and enjoyment of lands owned by the public.

(d) **Cooperation and Community Support**

- i. Describe demonstrated community support and project partners. Letters of support or other indications of support are encouraged, but optional. However, to be considered for the purpose of evaluation they must be included in the application and written on the supporting agency's or organization's letterhead.
- ii. Describe the efforts to include various stakeholders in planning and/or implementation of the project.
 - 1. Consultation and cooperation with local, state, and federal agencies, including methods used to solicit participation.
 - 2. The use of stakeholders in designing and/or implementing the project, including methods used to solicit participation. Describe the involvement of youth in the project, if appropriate.
- iii. Describe any known project opposition with an explanation of the nature of the concerns, and any efforts that have been taken to address the concerns.
- iv. Explain how the project will provide educational opportunities about the Sierra Nevada, the SNC, and the project area for children, schools, and communities.
- v. Describe the compatibility of the project with plans including, but not limited to, general plans, recreation plans, urban water management plans, integrated regional water management plans, community wildfire

- protection plans, and resource conservation plans, as well as the potential impact these plans may have on the long-term sustainability of the project.
- vi. Explain how the benefits of the completed project would be communicated to local and regional media; elected and agency officials from within the region; elected and agency officials from outside the region; non-governmental and business partners; and others.

(e) Project Management

Describe the capability of applicant and/or partners to provide for all relevant aspects of an integrated management process that ensures successful project planning and implementation. This should include a description of your organization's structure, longevity, staffing, capability, and experience. The applicant should demonstrate that staff or partners involved in the project will utilize all the applicable basic elements of a project management process. Provide information on the following:

- i. Fiscal partners and their roles in the project as related to the workplan
- ii. Applicant's or partners' demonstrated ability or type of training received to implement the proposed project

(f) Additional Factors and Final Ranking

The following additional evaluation factors may be taken into consideration in project ranking:

- Geographic distribution of projects
- Distribution of projects across program areas
- Organizational and community capacity

For the purposes of final rankings, SOG 2 projects will be considered together and placed in one of three ranks: High Benefit, Medium Benefit, and Low Benefit. Based on these rankings, recommendations for authorization by the SNC Board will be made for each Subregion as well as the Region-wide area, in consultation with Board committees.

Ranking summary information will be made public at the time recommendations are publicly noticed, usually two weeks prior to the Board meeting at which action is proposed. This information may include project rankings and a narrative justification for recommendations.

6. Performance Measures

Appendix C of this document provides information on performance measures which are used to track progress toward project goals and desired outcomes. They provide a means of reliably measuring and reporting the outcomes and effectiveness of a project,

and how it contributes to SNC achieving its programmatic goals.

Four of the performance measures listed in Appendix C may be applicable to all projects. Please follow the directions in Appendix C to choose one to three additional performance measures that are applicable to the specific project. Although a list of recommended performance measures is provided, applicants may propose alternative or additional performance measures, subject to the approval of SNC staff.

The performance measures you select should be directly applicable to the project's goals, outcomes, and deliverables. Agreed-upon measures become part of the approved grant agreement.

7. Environmental Setting and Impacts

Describe the environmental setting, current land uses on and surrounding the project area, any proposed changes in land use, any sensitive habitats and species, and any known cultural resources. This information should be detailed enough for SNC to determine if there are any significant environmental issues associated with the project. Refer to Appendix G of the California Environmental Quality Act (CEQA) Guidelines at http://ceres.ca.gov/topic/env_law/ceqa/guidelines/appendices.html for a checklist of environmental issues.

8. Project Location Map

Provide a city or county map indicating the project site. The map should provide enough detail to allow a person unfamiliar with the area to locate the project.

9. Photos of the Project Site

Submit no more than 10 photos to show the project area(s) as appropriate. Photos should be appropriately captioned for greatest usefulness.

10. Land Tenure

Provide information as follows:

(a) Land Tenure

Applicants must demonstrate and document to the SNC that they have adequate tenure to, and site control of, properties where access may be required for project implementation purposes.

Adequate tenure includes, but is not necessarily limited to:

- Fee title ownership.
- An easement or license agreement, sufficient for completion of the project consistent with the terms and conditions of the grant agreement.

- Other agreement between the applicant and the fee title owner, or the owner of an easement in the property sufficient to give the applicant adequate site control for the purposes of the project.²
- For projects involving multiple landowners, a clearly defined process which ensures that property owner permission is obtained to complete the project.

If the land tenure requirement is met through fee title ownership or other deeded interest, the applicant shall provide a copy of the recorded deed. If property is not owned in fee title, the applicant shall provide supporting documentation (copy of lease, easement deed, or agreement, etc.) with the application in order to verify that the land tenure requirement has been met.

(b) **Land Tenure Requirements – Alternate Process**

When an applicant does not have tenure at the time of application, but intends to establish tenure via an agreement that will be signed upon grant authorization, the applicant must follow the alternate land tenure process by:

- Submitting a copy of the proposed agreement at the time of application, as well as letters from the applicant and the prospective landlord in which each commits to sign the proposed agreement should the application be successful.
- Once a project has been authorized for funding, the applicant must submit a fully-executed agreement which meets the land tenure requirements within 60 days of Board authorization to execute the grant agreement.

11. California Environmental Quality Act (CEQA) and National Environmental Policy Act (NEPA) Compliance

All projects funded by the SNC must meet the requirements of CEQA. In some instances, proposed activities may not meet the definition of a “project” according to the provisions of CEQA. In those instances, the applicant will not be required to submit any CEQA documentation.

Any public agency applicant with a project subject to CEQA or NEPA must submit completed CEQA and/or NEPA documents with the application. The documents must have been adopted by the lead agency.

All other applicants should consult with SNC staff as soon as possible regarding the appropriate process and documents required. Applicants are also encouraged to refer to <http://ceres.ca.gov/ceqa/> for additional information about CEQA review.

In instances where CEQA documentation is required, the following processes should be followed.

² Adequate site control is the power or authority to conduct activities that are necessary for completion of the project consistent with the terms and conditions of the grant agreement.

Local and State Government Applicants

State or local agency applicants must complete the CEQA process by one of the following methods:

- If the project is Categorically Exempt under CEQA, the applicant must file a Notice of Exemption (NOE) under CEQA with the State Clearinghouse

OR

- In the event a Negative Declaration or Environmental Impact Report (EIR) will be required to comply with CEQA, the applicant must complete the appropriate documentation and file a Notice of Determination (NOD) with the State Clearinghouse

AND

- **A State Clearinghouse stamped copy of the NOE or the NOD along with the appropriate CEQA document must be submitted with the application.**

Non-profit and Tribal Applicants

Non-profit and tribal applicants who do not already have local or state government partners for a proposed project (through the need for a Department of Fish and Game Streambed Alteration Permit, local discretionary grading permit, or a conditional use permit, for example) should seek a local or State government agency having discretionary authority over the project to complete CEQA compliance. Should the applicant not find a government agency able to complete CEQA compliance, the applicant should contact SNC as early as possible to discuss the potential for the SNC to serve as a lead agency for purposes of CEQA.

Federal Applicants, Projects on Federal Land, or Projects with Federal Funding

When the project is on federal land, a federal agency is the applicant, or federal funding is involved, both NEPA and CEQA compliance are required. When an applicant has complied with NEPA, the applicant must also demonstrate compliance with CEQA by completing one of the following and submitting documentation of completion with the application:

- If the project is Categorically Exempt under CEQA and compliance with NEPA is complete, public agency applicants must also file a NOE under CEQA with the State Clearinghouse

OR

- In the event a Negative Declaration or EIR will be required to comply with CEQA, the applicant should follow the processes set forth in Title 14, California Code of Regulations, Chapter 3, Article 14, Sections 15221-15228 as applicable (http://ceres.ca.gov/ceqa/guidelines/15220-15229_web.pdf)

AND

- Where an applicant must comply with both CEQA and NEPA for a project, the applicant is encouraged to coordinate the CEQA/NEPA processes early in the project planning phase.

12. Leases or Agreements

Provide a list of all other leases, agreements, memoranda of understanding, etc., affecting project lands or the future operation and maintenance thereof (if applicable), excluding those relevant to land tenure. If not applicable, state that it is not applicable, and provide the reason(s) why.

13. Regulatory Requirements

Provide a list of existing and additional required permits, whether an application has been filed, contact information for the permitting agency staff, information on the status of each application, and an indication of when permit approval is expected. If not applicable, state that permits are not applicable, and provide the reason(s) why. Examples of potential permitting agencies include:

- California State Lands Commission
- California Department of Fish and Game
- U.S. Fish and Wildlife Service
- U.S. Army Corps of Engineers
- Regional Water Board
- State Historic Preservation Office
- California Native American Heritage Commission
- CAL FIRE
- Local government agencies

14. Demonstrations of Support

Letters of support or other indications of support are optional; however, to be considered for the purpose of evaluation, they must be included in the application on the supporting agency's or organization's letterhead. In addition, applications that include a project-specific resolution of support from the affected city and/or county, and, if appropriate, water agency, may be deemed to have met the SNC's requirement to cooperate and consult with local agencies.

15. Executive Officer Authorization Request Form

SOG 2 grants of less than \$50,000 may be authorized by the Board, or by the Executive Officer in instances where there are extenuating circumstances or time constraints, and the project is ranked as high benefit by the SNC staff. The total amount of such authorizations by the Executive Officer will be limited to a maximum of \$150,000

between scheduled Board meetings, and any authorizations shall be reported to the Board at the next scheduled Board meeting.

Applicants must complete the following request form, and clearly describe why the proposed project is infeasible unless authorized by the Executive Officer (rather than waiting for the next scheduled Board meeting). If the Executive Officer authorization request is denied, a revised grant application may still be considered by the Board. SNC staff will contact applicants to discuss this possibility.

SNC Reference Number

Request for Executive Officer Authorization (SOG 2 Applications Only)

Project Title:

Applicant:

Contact Person/email/phone:

Amount Requested: \$

Demonstration of need for Executive Officer authorization: *Clearly describe the time-sensitive nature of the project and why the project would not be feasible if approval were delayed to the next scheduled SNC Board meeting at which SOG 2 grants are being authorized.*

Applicant Signature

Date

IV. Approval Process for Strategic Opportunity Grants, Category 2

- Applicants submit a complete grant application to the SNC by the deadline.
- Application is reviewed by staff for completeness and eligibility.
- Complete, eligible applications are evaluated by the SNC staff. In evaluating projects, SNC staff may involve other parties as necessary and appropriate.
- In evaluating applications, the SNC may consider authorizing partial funding with concurrence from the grant applicant and with agreement that meaningful progress toward the goal can be made.
- As part of the evaluation process, site visits will be scheduled as necessary and appropriate.
- The SNC staff recommends projects for funding to the Board or the Executive Officer, as appropriate.
- For the purposes of final rankings, SOG 2 projects will be considered together and placed in one of three ranks: High Benefit, Medium Benefit, and Low Benefit. Recommendations for authorization by the SNC Board will be made for each Subregion as well as the Region-wide area, in consultation with Board committees, based on these rankings.
- The Board or Executive Officer determines the final authorizations.

V. Grant Agreement Process

Once a grant is authorized, an agreement for the grant amount will be entered into between the SNC and the grantee. The grant agreement will include a detailed description of the property to be acquired, or the scope of work to be accomplished, and performance measures to be included. It will also contain certain standard State agreement language. SNC will prepare the agreement, which will then be signed by the grantee and returned to SNC for approval.

Grant agreements may be amended by mutual agreement between the Grantee and SNC. Any request by the Grantee for amendments must be in writing stating the amendment request and reason for the request. The Grantee must make requests in a timely manner, and if feasible not less than 60 days before the effective date of the proposed amendment.

A. Sample Grant Agreements

Sample grant agreements for each project type are available separately at: http://www.sierranevada.ca.gov/grant_applications.html for those who desire as much information about requirements as possible in the event that their grants are authorized. The sample agreements are provided to highlight particular agreement provisions, and are not intended to substitute for a project-specific agreement. Each agreement will have unique characteristics pertinent to the individual agreement. The agreement provisions cover topics such as advances, payments, accounting, auditing, reporting requirements, and performance measures.

APPENDIX A

Glossary of Terms

Unless otherwise stated, the terms used in the SNC Proposition 84 Grants Guidelines and Grants Application Packets shall have the following meanings:

Acquisition – To obtain ownership of the fee title or any other permanent interest in real property, including easements and development rights. Leaseholds and rentals do not constitute Acquisition.

Applicant – Eligible entities as defined by the SNC Program.

Application – The individual application form and its required attachments for grants pursuant to the SNC Program.

Appraisal - An estimate of the value of real property for sale or acquisition.

Authorized Representative – The officer authorized in the Resolution to sign all required grant documents including, but not limited to, the grant agreement, the application form, and payment requests. The authorized representative may designate an alternate by informing SNC in writing.

Biological /Other Survey - An evaluation or collection of data regarding the conditions in an area using surveys and other direct measurements.

Board – The governing body of the SNC as established by PRC Section 33321.

Bond or Bond Act - Proposition 84, Safe Drinking Water, Water Quality and Supply, Flood Control, River and Coast Protection Bond Act of 2006 (Public Resources Code Section 75001 et seq.).

Capacity Building - Actions or support provided to entities that have need to develop specific skills or competencies or to generally improve performance or organizational/community effectiveness.

Capital Improvement Projects - Projects that utilize grant funds for acquisition of land or site improvement/restoration.

CEQA – The California Environmental Quality Act as set forth in the Public Resources Code Section 21000 et seq. CEQA is a law establishing policies and procedures that require agencies to identify, disclose to decision makers and the public, and attempt to lessen significant impacts to environmental and historical resources that may occur as a result of a proposed project to be undertaken, funded, or approved by a local or state agency. For more information, refer to: <http://ceres.ca.gov/ceqa/>.

CEQA/NEPA Compliance - Activities an entity performs to meet the requirements of CEQA or NEPA.

Collaborative Process - Willing cooperation between stakeholders with different interests to solve a problem or make decisions that cut across jurisdictional or other boundaries; often used when information is widely dispersed and no single individual, agency or group has sufficient resources to address the issue alone.

Competitive – A process whereby projects are ranked and selected on the basis of program-specific criteria.

Condition Assessment - Characterization of the current state or condition of a particular resource.

Conservancy – The Sierra Nevada Conservancy as defined in Public Resources Code Section 33302 (b).

Conservation Easement - Any limitation in a deed, will or other instrument in the form of an easement, restriction, covenant or condition which is or has been executed by or on behalf of the owner of the land subject to such easement and is binding upon the successive owners of such land, and the purpose of which is to retain land predominantly in its natural, scenic, historical, agricultural, forested or open-space condition. (Civil Code Section 815.1)

Curriculum - The set of courses or specific learning programs available at a school or university.

Data - A body or collection of facts, statistics, or other items of information from which conclusions can be drawn.

Design/Permit - Preliminary project planning or identification of methodologies or processes to achieve project goals, and the process of obtaining any regulatory approvals or permits necessary from appropriate governmental agencies in order to conduct the work of the project.

Easement - An interest in land entitling the holder thereof to a limited use or enjoyment of the land in which the interest exists, or to restrict the use or enjoyment of the land by the owner of the fee title.

Education/Interpretation - A visitor-serving amenity that educates and communicates the significance and value of natural, historical and cultural resources in a way that increases the understanding and enjoyment of these resources and that may utilize the expertise of a naturalist or other specialist skilled at educational interpretation.

Eligible Costs – Expenses incurred by the grantee during the agreement performance period of an approved agreement, which may be reimbursed by the SNC.

Enhancement - Modification of a site to increase/improve the condition of streams, forests, habitat and other resources.

Environmental Site Assessment - Phase I, Phase II or other reports which identify potential or existing contamination liabilities on the underlying land or physical improvements of a real estate holding.

Event/Program - A planned, coordinated activity or group of activities designed for a specific audience to achieve a specific goal.

Executive Officer - The person appointed the manager of the SNC.

Fair Market Value - The value placed upon property as supported by an appraisal that has been reviewed and approved by the California Department of General Services or other designated authority.

Fee Title - Land ownership that gives an owner maximum interest in the land and that entitles the owner to use the property consistent with federal, state and local laws and ordinances.

Fiscal Sponsor - An organization that is eligible to receive SNC Proposition 84 grants and is willing to assume fiscal responsibility for a grant project, although another entity would carry out the grant scope of work.

Grant - Funds made available to a grantee for eligible costs during an agreement performance period.

Grant Agreement - An agreement between the SNC and the grantee specifying the payment of funds by the SNC for the performance of the project scope within the agreement performance period by the grantee.

Grant Agreement Performance Period - The period of time during which the eligible costs may be incurred under the grant, and in which the work described in the grant scope must be completed.

Grant Agreement Term - The period of time that includes the agreement performance period, plus time for all work to be billed and paid by the state. This period is the same as the beginning and ending dates of the agreement.

Grantee - An entity that has an agreement for grant funds.

Grant Scope - Description of the items of work to be completed with grant funds as described in the application form and cost estimate.

Historical Resource - Includes, but is not limited to, any building, structure, site, area,

place, artifact, or collection of artifacts that is historically or archaeologically significant from a statewide perspective.

Infrastructure Development/Improvement - The physical improvement of real property, including the construction of facilities or structures (such as bridges, trails, culverts, buildings, etc.).

In-kind Contributions– Non-monetary donations that are utilized on the project, including materials and services. These donations shall be eligible as “other sources of funds” when providing budgetary information for application purposes.

Land Tenure – Legal ownership or other rights in land, sufficient to allow a grantee to conduct activities that are necessary for completion of the project consistent with the terms and conditions of the grant agreement. Examples include: fee title ownership; an easement for completion of the project consistent with the terms and conditions of the grant agreement; or agreements or a clearly defined process where the applicant has adequate site control for the purposes of the project.

Model/Map - Representations to visually show the organization, appearance or features of an area or subject.

Monitoring/Research - To search, observe or record an operation or condition with tools that have no effect upon the operation or condition.

Natural Resource Protection - Those actions necessary to prevent harm or damage to rivers, lakes, and streams, their watersheds and associated land, water, and other natural resources, or those actions necessary to allow the continued use and enjoyment of property or natural resources and includes acquisition, restoration, preservation and education.

NEPA – The National Environmental Policy Act of 1969, as amended. NEPA is a federal law requiring consideration of the potential environmental effects of proposed project whenever a federal agency has discretionary jurisdiction over some aspect of that project. For more information, refer to: <http://ceq.eh.doe.gov/nepa/nepanet.htm>.

Nonprofit Organization - A private, nonprofit organization that qualifies for exempt status under Section 501(c)(3) of Title 26 of the United States Code, and that has among its principal charitable purposes preservation of land for scientific, educational, recreational, scenic, or open-space opportunities; or protection of the natural environment or preservation or enhancement of wildlife; or preservation of cultural and historical resources; or efforts to provide for the enjoyment of public lands.

Other Sources of Funds - Cash or in-kind contributions necessary or used to complete the acquisition or site improvement/restoration project beyond the grant funds provided by this program.

Outreach Materials - Audio, visual and written materials developed to help explain a particular topic or subject.

Performance Measure – A quantitative or qualitative metric used by the SNC to track progress toward project goals and desired outcomes.

Plan - A document or process describing a set of actions to address specific needs or issues or create specific benefits.

Planning - The act or process of creating a plan.

Pre-Project Due Diligence - The analysis necessary to identify all aspects influencing a project and determine the risks associated with a project.

Preservation - Rehabilitation, stabilization, restoration, development, and reconstruction, or any combination of those activities.

Project – The work to be accomplished with grant funds.

Project Coordinator – An employee of the SNC who acts as a liaison with the applicants or grantees and administers grant funds, ensuring compliance with guidelines and the grant agreement.

Proposition 84 - See Bond.

Public Agencies – Any city, county, district, or joint powers authority; State agency; public university; or federal agency.

Region – The Sierra Nevada Region as defined in Public Resources Code Section 33302 (f).

Region-wide – Providing benefits that affect the overall breadth of the SNC Region or multiple Subregions within the Region.

Resource Protection - Those actions necessary to prevent harm or damage to natural, cultural, historical or archaeological resources, or those actions necessary to allow the continued use and enjoyment of property or resources, such as acquisition, development, restoration, preservation or interpretation.

Restoration - Activities that initiate, accelerate or return the components and processes of a damaged site to a previous historical state, a contemporary standard or a desired future condition including, but not limited to, projects for the control of erosion, the control and elimination of exotic species, fencing out threats to existing or restored natural resources, road elimination, and other plant and wildlife habitat improvement.

Site Improvements - Project activities involving the physical improvement or restoration of land.

SNC – Sierra Nevada Conservancy.

Stewardship Plan - A plan to provide ongoing implementation and management associated with the acquisition of a conservation easement or site improvement/restoration project.

Study/Report - Research or the detailed examination and analysis of a subject.

Subgrantee – An entity that enters into a contractual or grantor/grantee relationship with another entity receiving a block grant from the SNC for the purpose of carrying out a portion of the scope of work of the block grant.

Total Cost – The amount of the Other Sources of Funds combined with the SNC Grant request amount that is designated and necessary for the completion of a project.

Trail – A thoroughfare or track for pedestrian (including assistive mobility devices), skating or skateboarding, equestrian, skiing, canoeing, kayaking, bicycling or off-highway vehicle activities.

Tribal Organization – An Indian tribe, band, nation, or other organized group or community, or a tribal agency authorized by a tribe, which is recognized as eligible for special programs and services provided by the United States to Indians because of their status as Indians and is identified on pages 52829 to 52835, inclusive, of Number 250 of Volume 53 (December 29, 1988) of the Federal Register, as that list may be updated or amended from time to time.

Working Landscape(s) - Lands producing goods and commodities from the natural environment (such as farms, ranches, and forests in timber production). For many communities, these lands are an important part of the local economy, culture, and social fabric.

Working Landscape Preservation - Actions that preserve activities occurring on ranches, farms, and forestlands that result in sustainable economic, ecological, and social benefits to communities, people, and their environments.

Provide a general description of the project, including project goal, key actions or deliverables, and basic staffing and budget information:

APPENDIX C

Strategic Opportunity Grants GAP, Category 2

Performance Measures

Performance measures are used to track progress toward project goals and desired outcomes. They provide a means of reliably measuring and reporting the outcomes and effectiveness of a project and how it contributes to SNC achieving its programmatic goals.

All grantees are required to report on performance measures for their projects. Certain information will be asked of all projects. This includes data related to four quantitative performance measures if applicable to the project:

- Number of People Reached
- Dollar Value of Resources Leveraged for the Sierra Nevada
- Number and Type of Jobs Created
- Number of New, Improved or Preserved Economic Activities

Grantees are also required to provide qualitative, or narrative, information in their final project reports. In addition to the information that will be asked of all projects, grantees will report on performance measures (usually one to three) related to their specific project. You must propose these project-specific measures as part of your grant application. Generally, you will select these measures from a pre-approved list of measures developed by the SNC. However, you also have the option of proposing a different measure in your application if you believe it would be more appropriate for your project. Final performance measures will be determined in consultation with SNC staff.

The performance measures you select should be directly applicable to your project's goals, outcomes, and deliverables. Approved measures become part of a grantee's final grant agreement.

Selecting Project-Specific Performance Measures

1. You should begin the process of selecting project-specific performance measures by referring back to the project category you selected for your project. The following table provides a list of the recommended measures that are most likely to be relevant for projects in each category. A description of all of the measures follows the table. Examine your project purpose, goals, desired outcomes, and deliverables (from your project general description). Select measures that will help you determine whether and how well these have been achieved. (If you are unclear on which measure/s to select or have questions, please contact SNC staff.)

2. Review your project workplan and budget to ensure you have factored in the need to gather and report performance measure-related information.
3. For each performance measure you include, identify target values for your project. For example, how many people do you expect to reach? How many and what type of jobs will your project create? If you are restoring or improving a site, what is the current condition of the site and what condition do you hope to achieve by the end of your project?
4. You may find that the performance measures listed below are not relevant to your project. SNC encourages the development of performance measures most appropriate for your project. Development of new measures should be done in consultation with SNC staff, because it requires their approval. When proposing a new performance measure, keep in mind that the measure should directly relate to a specific project goal, outcome, or deliverable. Consider performance measures that can be tracked using accepted methods to ensure that your data will be consistent and defensible. For any new performance measures proposed for your project, provide the following information:
 - Clear definition
 - Data collection method(s)
 - Data sources
 - Target values.

Performance Measures by Project Category (SOG 2s)

A. Common to All Categories
1. Number of People Reached 2. Dollar Value of Resources leveraged for the Sierra Nevada 3. Number and Type of Jobs Created 4. Number of New, Improved, or Preserved Economic Activities
B. Performance Measures by Project Category
Monitoring/Research 16. Number of Collaboratively Developed Plans and Assessments Planning 16. Number of Collaboratively Developed Plans and Assessments 17. Percent of Pre-project and Planning Efforts Resulting in Project Implementation Education/Interpretation 18. Measurable Changes in Knowledge or Behaviors Pre-Project Due Diligence 17. Percent of Pre-project and Planning Efforts Resulting Project implementation

Performance Measure Descriptions

The following performance measures (PMs) have been developed to meet SNC's initial needs as it launches its programs and provides initial grant funding for several project types. These PMs, along with a brief description of each, are listed below in two broad categories: Performance Measures for All Categories and Performance Measures Specific to Project Type.

Note: Performance Measures 5 – 15 are not included in this list because they apply to Competitive and SOG 1 projects only.

A. Performance Measures for All Categories

1. Number of People Reached

Number of People Reached measures progress of information-sharing and education efforts and inclusiveness of other project efforts such as plan development.

2. Dollar Value of Resources Leveraged for the Sierra Nevada

The Dollar Value of Resources Leveraged provides a measure of the additional resources generated as a result of SNC investment. The total value is based on matching funds provided by external sources, valuation of volunteer hours, and the value of in-kind contributions made by a project.

3. Number and Type of Jobs Created

Number and Type of Jobs Created provides an accounting of the full-time equivalent jobs created by SNC-funded activities. Information provided should describe whether the job is expected to be temporary or long-term.

4. Number of New, Improved, or Preserved Economic Activities

New, Improved, or Preserved Economic Activities measures the types, quantities, and, where appropriate, estimated dollar values of new, improved, or preserved activities, products, and services resulting from the project.

B. Performance Measures Specific to Project Type

16. Number of Collaboratively Developed Plans and Assessments

The Number of Collaboratively Developed Plans and Assessments is a measure that may be relevant for a wide variety of projects. Plans and assessments help communities plan for resource use, qualify for targeted funding, and support understanding of conditions and management options. Examples of anticipated subjects include fire protection, water resources, land use, tourism development, habitat surveys and many more.

17. Percent of Pre-project and Planning Efforts Resulting in Project Implementation

Percent of Pre-project and Planning Efforts Implemented measures progress in moving SNC-funded projects from initial stages of collaboration and planning to on-the-ground actions.

18. Measurable Changes in Knowledge or Behavior

Measurable Change in Knowledge or Behavior tracks the effects of educational and interpretive efforts to improve appreciation for and stewardship of Sierra Nevada resources. Examples of behavioral change include increased Firewise landscaping and removal of noxious weeds on private property. Examples of change in knowledge include improved student understanding of climate change and increased public acceptance of prescribed fire.
